

**Moonraker Owners Club**  
**Members Questionnaire**

Dear members

Please find a few minutes to complete the members questionnaire. It is intended to provide the club with some information on the boats represented and some history of the changes in production. When the details have been collated the results will be published in a future issue of the magazine.

Some of the questions are designed to identify production changes and therefore build nos. and dates are important.

Please send your replies to:
