Nearest Commercial Airport Norwich (10KM)

EFFECTIVE June 1974

## OPTIONAL EQUIPMENT

Whilst the Softrider 36 range is constructed to a specification that is in itself "complete" we recognise that some owners will wish to personalise their craft to individual requirements. Listed below are the items that your Moonraker has been specifically designed to accommodate.

We differentiate between Factory fitted equipment which must be finalised before build commences - and Service Extras which may be fitted at any time after the vessel has been completed by the Factory. Service Extras are identified by *italic* print.

	£
